

WHO WE ARE

HPTE is a government-owned business within the Colorado Department of Transportation (CDOT) that quickly delivers solutions to improve mobility and offer Coloradans choice in transportation, even amidst traditional infrastructure funding constraints. Our goal is to make your commute better.

HOW WE HELP

Moving people and goods efficiently is critical to the economy and quality of life in Colorado, one of our nation's fastest-growing states. HPTE empowers CDOT to keep pace and get out in front of growth in three main ways: We are the Public Private Partnership (P3) entity for the State, the developer and operator of Express Lanes, and an innovative finance think tank.

HPTE'S PROJECTS ARE  NATIONALLY RENOWNED FOR:

CREATIVE AND HIGHLY EFFECTIVE SOLUTIONS FOR REDUCING CONGESTION

Since 2015, HPTE and CDOT opened Express Lanes on I-25, US 36 and I-70 in the mountains. Central 70, I-25 in northern Colorado and C-470 will soon add time-saving Express Lanes.

70

The Express Lanes are working for everyone — saving millions of Coloradans thousands of hours, whether they use Express Lanes or adjacent free lanes.

HPTE uses the Express Lanes to actively manage traffic congestion. Travelers in all lanes -- including the free lanes -- can see time savings of anywhere from 20-50 percent.

Any toll revenue generated from the Express Lanes can help to repay the money borrowed to finance their construction, as well as pay for ongoing operations and management.

LEVERAGING PRIVATE CAPITAL TO MEET PUBLIC DEMAND

HPTE will sometimes engage with the private sector to accelerate a project or transfer risks that are better managed by the market, as opposed to government. HPTE's private partner for US 36 assumes the toll risk while covering the costs of ongoing operations and maintenance, all while ensuring the roadway functions at the highest level.

ON CENTRAL 70, OUR PRIVATE PARTNER CONCEIVED OF AN ALTERNATIVE DESIGN THAT SAVED THE PROJECT AND TAXPAYERS MILLIONS OF DOLLARS.

SAFE, MULTI-MODAL COMMUTING

HPTE TRANSFORMED  INTO A TRULY MULTI-MODAL SYSTEM THAT SUPPORTS:

1

CARPOOLING

2

BUS RAPID TRANSIT

3

TOLLED EXPRESS LANE TRAVEL

4

HISTORY OF SUCCESS

HPTE is a leader in delivering transformative projects that have received national recognition for innovation, service and use of technology. Other states and countries point to HPTE and Colorado's success as a model to emulate.

IN THE FUTURE

HPTE is developing a strategic plan for the future of Express Lanes. We are also working to facilitate additional transformative programs in Colorado, including Hyperloop, connected and autonomous vehicles and digital communication networks.
