#### INTRODUCTION

Pursuant to Schedule 6, Section 1.8.2(a) of the Concession Agreement, Plenary Roads Denver ("PRD") is required to submit a monthly report covering all essential statistics related to the Managed Lanes. The following data covers the month of October 2023. Operationally, October was a positive month. Several routine maintenance tasks were completed, there were minimal incidents to maintained elements, and traffic volumes were consistent with expectations.

#### 1.0 VOLUMES AND LANE USAGE

Over the last several months as more commuters use the transponders for either ExpressToll™ (AVI) or HOV travel, License Plate (LPT) transactions have consistently decreased as a percentage of total traffic volume. The total monthly gantry traffic volume for October 2023 in the I-25 Central and US 36 Managed Lanes was 265,421 and 1,401,576 respectively.

The table below provides the monthly summary for each Managed Lanes roadway, along with a detailed breakdown of weekday volumes. For reference, the AM Peak Period is considered to be weekdays from 6:45 am – 8:45 am. The PM Peak Period is considered to be, weekdays, from 4:15pm – 5:45pm. It should be noted, that the I-25 Managed Lane traffic reflects traffic counts from a single gantry and US 36 Managed Lane counts reflect fourteen gantries, seven gantries in each direction. Therefore, US 36 data will indicate far greater traffic counts that are not comparative to those of I-25.

The following charts depict the distribution of traffic by type (Figure 1) and the daily traffic counts (Figure 2) and for the month.

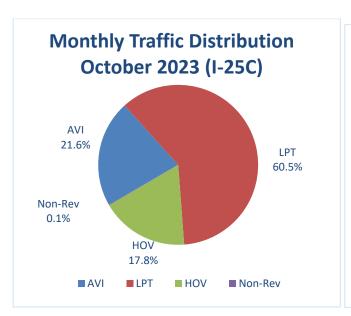

Traffic Summary (US-36)													
AVI LPT HOV Non-Rev To													
Total Monthly Traffic	604,362	586,550	207,350	3,314	1,401,576								
Maximum Weekday Traffic	28,591	27,534	9,043	284	62,512								
Average Weekday Traffic	24,145	22,544	6,890	129	53,708								
Average Hourly AM Peak Traffic	2,986	2,458	702	13	6,159								
Average Hourly PM Peak Traffic	7	7,407											

	Traffic Su	mmary (I-250	C)												
	AVI LPT HOV Non-Rev Total														
AVI LPT HOV Non-Rev Tot															
Total Monthly Traffic	57,419	160,588	47,145	269	265,421										
Maximum Weekday Traffic	2,859	7,769	1,941	18	12,476										
Average Weekday Traffic	2,384	6,579	1,717	11	10,680										
Average Hourly AM Peak Traffic	320	918	225	2	1,463										
Average Hourly PM Peak Traffic	270	673	187	1	1,130

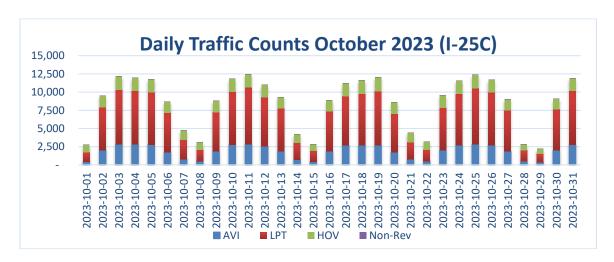

Figure 2 - Daily Traffic Counts

#### 2.0 REVENUES

During the month of October 2023, PRD collected \$938,362 and \$1,274,190 from users of the I-25 Central and US36 Managed Lanes, respectively. For purposes of this report, revenues are recognized at the time of collection, which is typically sometime after they have been incurred for those customers who are billed based on their license plate. For example, if a single-occupant vehicle uses the lanes in October but pays in January, the associated revenue is attributed to January.

#### 3.0 OPERATIONAL INCIDENTS, ISSUES, AND CLOSURES

The project had numerous routine debris removals, lighting incidents, guardrail incidents, sign incidents, and graffiti control during the month. The routine lighting, guardrail, roadway markings and sign incidents are all planned for repair within the allowable response period and several previously identified lighting incidents were repaired. All incidents were responded to and rectified within the allowable timeframes.

Date	Start	Stop	Duration
July 3, 2023	05:00	06:56	1:56

Table 2 – Managed Lanes Closures to Date

The table below provides a listing of ETCS items recorded this month, consistent with Appendix 6-2 of Schedule 6.

Element ID	Cat	Element	Performance Item	PRD Notified	Contractual Cure Period	Cure Achieved
None						

Table 3 – ETCS Issues per CA Schedule 6 Appendix 6-2

The table below provides a status of all Noncompliance categories in accordance with paragraph 1.2 of Schedule 10.

Non- compliance Location	Nature	Cause	Cure Date	Uncured Non- compliance Point	Unexpired Non- compliance Point	365 Day Expiration Date	1095 Day Expiration Date
None							

**Table 4 – Status of Noncompliance Categories** 

#### 4.0 MEAN TIME BETWEEN FAILURE (MTBF) AND MEAN TIME TO REPAIR (MTTR)

Mean Time Between Failure (MTBF) and Mean Time To Repair (MTTR) data is provided in the table below. Only Maintained Elements that were repaired during the reporting period and had a failure type breakdown are listed in the table. We consider a breakdown to be a failure when the element cannot be used for its intended purpose until repaired.

Maintained Element	Mean Time Between Failure (MTBF) (Hours)	Mean Time To Repair (MTTR) (Hours)
None	N/A	N/A

Table 5 – Mean Time Between Failure & Mean Time To Repair

## PERATIONS AND MAINTENANCE MONTHLY REPORT OCTOBER 2023

US 36 and I-25 Express Lanes Project

Plenary Roads Denver, LLC 1700 Lincoln Street, Suite 3000 Denver, CO 80203

Attention: Mr. Christian Guevara, PE

#### Prepared By:

Webber 10525 West 120<sup>th</sup> Avenue Broomfield, CO 80021 United States of America

Nick Reinsvold Project Manager

#### OPERATIONS AND MAINTENANCE – MONTHLY REPORT OCTOBER 2023 US 36 and I-25 Express Lanes Project

Revision	Date	Approved
Rev. 0	11/5/2023	Nick Reinsvold

This report titled *Operations and Maintenance Monthly Report, October 2023* has been prepared by Webber for the exclusive use of Plenary Roads Denver, LLC (PRD). No other party is an intended beneficiary of this report or the information, opinions, and conclusions contained herein. Any use by any party other than PRD of any of the information, opinions, or conclusions is the sole responsibility of said party. The use of this report shall be at the sole risk of the user regardless of any fault or negligence of PRD or Webber.

The information and analyses contained herein have been completed to a level of detail commensurate with the objectives of the assignment and in light of the information made available to Webber at the time of preparation. This report and its supporting documentation have been reviewed and/or checked for conformance with industry-accepted norms. To the best of the information and belief of Webber, the information presented in this report is accurate to within the limitations specified herein.

This report is Webber pdf file: OM Monthly Report OCTOBER 2023.pdf. Any reproductions or modifications of this report are uncontrolled and may not be the most recent revision.

The O&M Monthly Report contains all relevant information for the month. Webber continues ongoing and preventive maintenance activities for the I-25 and US36 Managed Lanes Project.

#### Webber Commitment to Safety

Webber conducted weekly toolbox talk meetings during the month. The purpose of the toolbox talks is to cover important safety items that relate to the project such as near misses, "better ways" as to how safety is conducted for the Project, and discussion on safety procedures for maintenance activities. In addition to the toolbox talks, Webber conducts a weekly progress meeting. This is a forum for feedback from staff on Operations, Incident Response, and Maintenance activities.

Toolbox Talks this month included:

- The Importance or Reporting
- Ergonomics
- What is an OSHA Recordable
- Dangers of the Holidays

#### A. Summary of the Planned Maintenance Activities for the Upcoming Month

Webber has identified the upcoming planned maintenance activities as described in Table 1.7.1.3 of The Maintenance Management Plan. These activities include preventative and routine maintenance in order to successfully operate and maintain the Project. A listing of the planned maintenance activities for the month are included below.

#### Fig. A-1 Planned Maintenance Activities for the Upcoming Month

#### C. Summary of Planned Maintenance that was Not Completed for the Month

Webber completed all scheduled maintenance activities for the month. Frequencies and/or actual date of the month of some activities may have been adjusted based on actual conditions.

## D. Summary of the Maintenance Activities and Results Performed for the Month Beyond Planned Maintenance

A summary of unplanned maintenance activities provided below: None

Snow and Ice Control:

Precipitation Event		Equipment		Precipitation Event		Service Level "A"		Service Level "A"	
Start		Deployed		End		Achieved in ML		Achieved in GP	
10/28/2023	05:16	10/28/2023	05:30	10/29/2023	19:53	10/29/2023	11:55	10/29/2023	11:55

Hazardous Materials Incidents: None

## E. Operating Contractor's Incident Response Logs Related to Maintenance Activities

This section provides a summary of Webber performance related to the Performance and Measurement Criteria listed in Appendix 6-1.1 of the Operating Contract.

The table below provides a listing of items recorded this month:

	Description	Location	Notified	Response to Defects			
				Cate	Category 2		
				Hazard Mitigation	Permanent Remedy	Permanent Repair	
GP1.8	SHOULDERS (Shoulder Drop Exceeds 2")	MP 41.0 EB	09/06/2023 20:21:00	N/A	N/A	Reqd: 6 Months Respd: 10/03/2023 Actual: 0.90 Months

All items were completed within the required response time. Items that are *In Progress* are still within the allowed response time.

#### F. Detailed Results of All Inspections, Assessments, and Testing Activities

During this reporting period there were no special inspections, assessments, or testing results outside normal operating condition.

#### G. Monthly Toll System Performance Reports

Toll system operated within proposed parameters per Webber observations.

#### H. Preventative Maintenance Plan and Progress

Preventative Maintenance work is contingent on Initial Works Package implementation.

#### I, J. Mean Time between Failure (MTBF), Mean Time to Repair (MTTR)

No Maintained Elements experienced a failure type breakdown this month. Webber considers a breakdown to be a failure when the element cannot be used for its intended purpose until repaired.
