## **CDOT's Environmental Ethics Statement**

In operating and maintaining the State Highway System and other transportation programs, the Colorado Department of Transportation strives to be a good steward of the environment. CDOT goes beyond the level of environmental compliance that is required as a minimum, and strives for environmental excellence.

This approach is reflected in CDOT's Environmental Ethics Statement that was adopted as a policy of the State Transportation Commission in 2003:

"CDOT will support and enhance efforts to protect the environment and quality of life for all of Colorado's citizens in the pursuit of providing the best transportation systems and services possible."
