Noise Abatement and Assessment Program

The Colorado Department of Transportation's Noise Assessment and Abatement Program staff ensures that all traffic noise studies and analyses prepared for CDOT projects adhere to procedures and requirements as established by federal law, regulations, and federal and state noise analysis guidelines.

CDOT's review of project-level traffic noise studies ensures that noise abatement policies are uniformly and consistently applied. This ensures equitable treatment for those impacted by highway traffic noise.

Regulations: 23 CFR 772

Guidance: CDOT Noise Analysis and Abatement Guidelines
