## CDOT Water Quality Program

The Colorado Department of Transportation's Water Quality Program staff works to ensure that the quality of stormwater runoff is protected in accordance with Clean Water Act requirements while Colorado's roadways are constructed, operated and maintained by implementing the seven programs below:

- Construction Sites Program
- New Development and Redevelopment Program
- Illicit Discharge Program
- Industrial Facilities Program
- Public Education and Public Involvement Program
- Pollution Prevention and Good Housekeeping Program
- Wet Weather Monitoring Program

Law: 40 CFR 100
