## CDOT Construction Sites Program

The purpose of the CDOT Construction Sites Program is to ensure adequate design, implementation and maintenance of temporary Best Management Practices (BMPs) at construction sites to reduce pollutant discharges and protect water quality. This is achieved through the use of a Stormwater Management Plan (SWMP), installation of temporary water quality BMPs, and site inspections.

The purpose of the site inspections is to ensure the correct implementation of the SWMP, and to assure compliance with the project's water quality permit(s).

Guidance: CDOT Water Quality Program Book  
CDOT Erosion Control Stormwater Quality Guide,  
Chapter 5
