## **Colorado Senate Bill 40 Wildlife Certification**

Since 1969, Colorado Senate Bill 40 requirements have governed construction actions of a State agency that might obstruct, alter or harm the natural existing shape and form of any stream or its banks. Accordingly, CDOT projects are designed to minimize impacts to riparian areas.

The SB 40 certification process requires CDOT to provide advance notice of construction plans to the Colorado Division of Wildlife.

Partner agency: Colorado Division of Wildlife

Law: CRS 33-5  
Guidance: 1990 Memorandum of Agreement regarding SB 40 Certification
