

# CDOT Wetland Program Cheat Sheet

**Wetland Delineation** - Required on all projects with aquatic resources within the study area

**Wetland Data** - All delineations completed for CDOT require GIS data delivery using CDOT wetland data procedures

**Wetland Impact Assessment** - Always required for all wetlands, regardless of Clean Water Act jurisdiction

**Wetland Finding** - Required for projects with 500 ft<sup>2</sup> or more of permanent impacts  
or  
1,000 ft<sup>2</sup> or more of temporary and permanent combined impacts

**Wetland Finding FHWA signature** - Required for projects with 1 acre or more of impacts – temporary and permanent combined  
- Required for projects authorized under an individual 404 permit

## **FACWet (Functional Assessment of Colorado Wetlands)**

- Analysis required for projects with permanent wetland impacts of 0.1 acre or more
- Analysis results should be used in mitigation planning and monitoring

**Wetland Mitigation** - Mitigation required for wetland impacts regardless of CWA jurisdiction  
- Avoidance and minimization measures always required  
- Compensatory replacement required on 1:1 basis unless functional assessment shows lower replacement is sufficient
