

C-470 EXPRESS LANES

WHY EXPRESS LANES? THE ANSWER IS SIMPLE: CHOICE.

The C-470 Express Lanes provide a more reliable, predictable trip. You have the choice of taking Express Lanes to reach your destination faster by paying a toll, or you can travel in the general purpose lanes for free. By better managing traffic flow, Express Lanes reduce travel delays across all lanes.

C-470 EXPRESS LANES FROM WADSWORTH BOULEVARD TO I-25

The C-470 Express Lanes run along the 12.5 miles of C-470 between I-25 and Wadsworth Boulevard. Drivers are charged based on how far they travel in the Express Lanes. The C-470 Express Lanes are free for all motorcycles, with no pass required. HOV 3+ is not available on this corridor. On C-470, the Switchable HOV Transponder will not provide the HOV discount, even if the slider is in HOV mode.

WHY NO HOV?

Toll revenues helped to finance the construction of this project. In order for CDOT to pay for the project and according to traffic revenue studies, the best way to deliver the project while ensuring a reliable trip option was to toll all Express Lane users except for motorcycles.

Get an ExpressToll Pass and save at least 40% compared to the cost without a pass. ExpressToll passes are used on all Express Lane facilities in Colorado. For more information, go to expresstoll.com.

Visit expresslanes.codot.gov for more information.

CORRIDOR BASICS

- Open 24/7
- No HOV 3+
- Motorcycles can use the lanes for free
- Overhead signage indicates current toll prices. Tolls are collected through ExpressToll account or License Plate Toll.
