

I-25 NORTH EXPRESS LANES PROJECT: BERTHOUD TO FORT COLLINS COMING SOON

WHY EXPRESS LANES? THE ANSWER IS SIMPLE: CHOICE.

Express Lanes provide a more reliable, predictable trip. You have the choice of taking Express Lanes to reach your destination faster by paying a toll, or you can travel the lanes for free if you carpool, take the bus or ride a motorcycle. You can also travel in the general purpose lanes for free. By better managing traffic flow, Express Lanes reduce travel delays across all lanes.

I-25 NORTH BERTHOUD TO FORT COLLINS

The I-25 North Express Lanes project from Berthoud to Fort Collins will provide trip reliability and safety improvements for north I-25. The project will do it about 13 years earlier than originally expected. The project will:

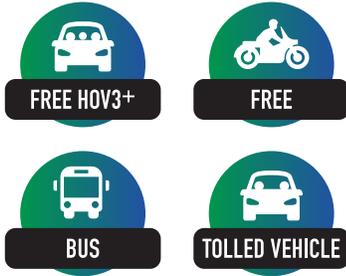

- Add capacity and provide the choice of a reliable travel time with the addition of one Express Lane in each direction
- Replace aging bridges and widen others
- Improve bus service performance
- Reconstruct interchanges
- Incorporate intelligent transportation systems
- Add new carpool and transit facilities

Get an ExpressToll Pass and save at least 40% compared to the cost without a pass. ExpressToll passes are used on all Express Lane facilities in Colorado. You must have a Switchable HOV Transponder to use the free carpool option on the Express Lanes. For more information go to expresstoll.com.

Visit expresslanes.codot.gov for more information.

CORRIDOR BASICS

- Overhead signage will indicate current toll prices. Tolls will be collected through ExpressToll account or License Plate Toll.
- Lanes will be open 24/7.
- Free carpool, free motorcycle, bus and toll options will be available.
