

## **Why Express Lanes? The Answer is Simple: Choice.**

Express Lanes are always built adjacent to existing general purpose lanes and offer roadway users the choice to pay a toll, use transit or carpool for a more reliable trip. On CDOT's Express Lane corridors, travelers in all lanes (including the general purpose lanes) see time savings of anywhere from 20% to 50%. By offering choices, Express Lanes help to reduce delays, manage congestion and keep travel times reliable for motorists.
