

I-25 SOUTH GAP PROJECT: MONUMENT TO CASTLE ROCK COMING SOON

WHY EXPRESS LANES? THE ANSWER IS SIMPLE: CHOICE.

Express Lanes increase road capacity and help manage congestion on the highways, eliminating the need to continue to build more lanes. And the best part? The choice is yours. Ride the bus, carpool, pay a toll or just use the existing free general purpose lanes. Express Lanes work to move more people, rather than move more cars. By offering choices, Express Lanes will help to reduce delays, manage congestion and keep travel times reliable for motorists.

NEW EXPRESS LANES COMING SOON

As Colorado's population continues to grow, Express Lanes are a long-term solution to make sure drivers will be able to get where they are going and get there on time. A system of Express Lanes is under construction: Central 70 Project, C-470 Express Lanes Project, I-25 North Express Lanes Project: from Berthoud to Fort Collins, I-25 North Express Lanes Project: from 120th Avenue to Northwest Parkway/E-470, the I-25 South Gap Project: from Monument to Castle Rock, and soon on the westbound I-70 Mountain Express Lane.

I-25 SOUTH GAP MONUMENT TO CASTLE ROCK

The project will build one new Express Lane in each direction of I-25 along an 18-mile stretch known as "The Gap"—south of Castle Rock to Monument.

CORRIDOR BASICS

- 18 miles from Monument to Castle Rock
- The project will add one Express Lane in each direction along with safety, infrastructure and wildlife crossing improvements.
- Motorists will have a choice to take the general purpose lanes for free, or take the Express Lanes for a shorter and more reliable travel time.

Visit expresslanes.codot.gov for more information.

CORRIDOR BASICS

- Vehicles with three or more people and motorcycles will be able to use the Express Lanes for free.
- Overhead signage will indicate toll prices and tolls will be collected through ExpressToll account or through License Plate Toll.
