COLORADO EXPRESS LANES

US 36: Federal Boulevard to Table Mesa Drive

Why Express Lanes? The Answer is Simple: Choice.

Express Lanes are always built adjacent to existing general-purpose lanes and offer roadway users the choice to pay a toll, use transit or carpool for a more reliable trip. On CDOT's Express Lane corridors, travelers in all lanes (including the general-purpose lanes) see time savings of anywhere from 20% to 50%. By offering choices, Express Lanes help to reduce delays, manage congestion and keep travel times reliable for motorists.

US 36: Federal Boulevard to Table Mesa Drive

The US 36 Express Lanes run Denver from Federal Boulevard in Westminster to Table Mesa Drive in Boulder. There's an Express Lane in each direction alongside the general-purpose lanes, and they connect to the reversible I-25 Central Express Lanes between US 36 and downtown Denver.

Corridor Basics

- 16 miles of Express Lanes in each direction, from Federal Boulevard to Table Mesa Drive.
- Lanes are open 24/7.
- Overhead signage indicates current toll prices. Tolls are collected through ExpressToll account or License Plate Toll.
- Travel options include tolled vehicles, buses, free HOV3+ and free motorcycles.
- Carpoolers must have a Switchable HOV3+ Transponder and three or more people in the vehicle to use the Express Lanes for free.
- The Safety and Toll Enforcement Program is in effect. Sophisticated roadside technology is used to enforce the following rules:
  - No weaving across double solid white lines.
  - Enter and exit through the dashed lines only.
