

I-25 North US 36 to 120th Avenue Express Lanes Toll Adjustment Fact Sheet 2020

How are toll rates set?

- Toll rate adjustments are based on traffic analysis, looking at historical traffic volumes on I-25 North between particular tolling points, and on operations and maintenance costs. The fixed, time-of-day toll rates are set to reflect demand on the roadway throughout the day in order to maintain reliable travel times for Express Lane users.
- Toll revenue is used to repay financing costs of building and maintaining the road, and to pay for the ongoing costs to operate and maintain I-25 North.
- The toll adjustment on I-25 North Express Lanes will happen in conjunction with the I-25 North 120th Avenue to Northwest Parkway/E-470 toll rate setting.
- The HPTE Board approved toll rates for both I-25 North 120th Avenue to Northwest Parkway/E-470 and I-25 North US 36 to 120th Avenue Express Lanes at the March 18 HPTE Board meeting.
- If you have any questions, please send them to dot_hppte@state.co.us

How can drivers use the I-25 North Express Lanes?

- Commuters can pay a toll, carpool, or use transit or motorcycles for free. Drivers are never forced to use the Express Lanes and can always choose to use the adjacent free general purpose lanes. Carpoolers must have a Switchable HOV transponder and three or more people in the car to ride for free.
- Drivers pay the toll rate that is displayed on overhead signs (VMS) only once when they enter anywhere between US 36 and 120th Avenue. For the most recent and detailed toll rate information, please visit expresslanes.codot.gov.
- Drivers save money every time with an ExpressToll pass. Visit ExpressToll.com or call (303) 537-3470 to create an account and get a pass.
