

I-25 North Express Lanes 120th Avenue - Northwest Parkway/E-470

As Express Lanes open throughout the state, there's a lot to learn about how to appropriately use the lanes. It's important to know that travelers are never forced to pay a toll and can always choose to travel in the adjacent free general purpose lanes. If motorists choose to jump in the Express Lane to get there faster, here are the basics.

What you need to know about the I-25 North Express Lanes from 120th Avenue to Northwest Parkway/E-470

- The I-25 North Express Lanes will be available 24 hours a day.
- Drivers will be charged one price, no matter where the driver enters from 120th Avenue to Northwest Parkway/E-470.
- **Northbound travelers:**
There are three northbound entrances to the new Express Lane. The entrances are: just south of 120th Avenue, at 128th Avenue and at 144th Avenue
- **Southbound travelers:**
There are three entrances to the southbound I-25 North Express Lanes: just north of 144th Avenue, 128th Avenue and just south of 120th Avenue.
- Entrances to the existing I-25 North Express Lanes are at US 36 and at 120th Avenue. **Do not cross the solid white line; enter and exit at the designated areas only, shown with a white dashed line.**
- Travelers will be charged the toll price posted when they entered an Express Lane, except for the sections that have toll collection being waived during testing. If the price should increase or decrease while they are in the lane, drivers will pay the price posted upon entry.

A circular icon with a blue border and a white background, containing the letters "HOV" in red. The icon is positioned to the left of the "How are tolls collected?" header.

HOV

How are tolls collected?

- All tolls are collected electronically through an ExpressToll account and pass, or through a License Plate Toll (LPT).
- ExpressToll account and pass holders save money on every trip.
- Drivers who choose to pay through an LPT will pay the toll plus a surcharge to process the license plate. A bill will be sent to the registered vehicle owner and it will be higher than if you have an ExpressToll account.
- There's no need to stop at a tollbooth, as overhead readers track tolling.
- Existing ExpressToll sticker passes and Switchable HOV Transponders will work on the new section of the I-25 North Express Lanes.
- The Switchable HOV Transponder is the only transponder that allows drivers to carpool in the I-25 North Express Lanes for free with three or more people in the car. An ExpressToll customer service representative can help you decide which pass is best for you, based on your particular needs.

How are toll prices determined?

Express Lanes will use a time of day pricing system in which tolls can change in price depending on the time of day and the typical busy times for the corridor.

The HPTE Board of Directors establishes toll rates annually and communicates with the corridor communities on toll rate changes.

Overhead Variable Message Signs are updated on the highway in real-time and show exactly what the toll rate is at that time, so the driver can know exactly how much they'll be charged.

What are the tolls?
