

Colorado High Performance Transportation Enterprise - Request for Information

RESPONSES TO RESPONDENT'S QUESTIONS

June 30, 2015

In accordance with Section II of the RFI, the HPTE has received the following questions from Respondents and hereby issue the following response to each question.

QUESTION #	SECTION	QUESTION / COMMENT FROM PROPOSER	HPTE RESPONSE
1	Section III	Can any submitting parties submit and be notified of a decision on the Request For Confidentiality prior to submitting the final document by July 15th?	No. HPTE will go through the Evaluation procedure set forth in the RFI once all submissions have been received.
2	Section III (F)	What is the range of fees a submitting party might expect to compensate CDOT for reviewing unsolicited proposals? Please provide conservative estimates based on previous fees and costs for evaluating general construction proposals.	This is something that will have to be worked out between HPTE/CDOT and the Respondent as it is heavily dependent on what kind of effort is required of the state to review and evaluate the proposal.
