# STATE OF COLORADO

#### DEPARTMENT OF TRANSPORTATION

**DATE:** February 20, 2014

**TO:** Transportation Commission

**FROM:** Scott Richrath, Chief Financial Officer

Scott McDaniel, Acting Chief Engineer

**SUBJECT:** RAMP Partnership and Operations Projects

### Purpose

This workshop and memorandum provide an update to the Commission on the scope, schedule, budget and local partner commitment required by resolution TC-3106 adopted at the October 2013 commission meeting and requests Commission approval to budget RAMP funds to the projects that have met these requirements.

### **Action Requested**

The Commission is requested to pass a resolution approving the budgeting of RAMP funding outlined below for approved projects.

### **Background**

Resolution Number TC-3106 which was passed at the October 2013 Commission meeting approved four public-private (P3) projects, forty public-public partnership projects, and thirty-one operations projects. The resolution also required that scope, schedule and budget estimates be prepared by CDOT and the local partners involved to recommit to the projects by January 6, 2014. Local partners in flood affected areas were able to request an extension to April 7, 2014. Finally, the resolution authorized the Chief Financial Officer to budget up to five percent of the project cost so that the requirements of this resolution and the accelerated timetables of the RAMP program could both be met.

CDOT staff has reviewed the scope, schedule, and budget estimates as well as the local partner's commitment and makes the recommendations noted in this memorandum.

### Details

1. There are a total of seventy-five (75) RAMP projects approved by Commission action. This includes the Westbound Twin Tunnel Widening project approved by Commission action in January. As reported in January, two small public-public devolution projects were withdrawn by Larimer County and three partners in flood-affected areas were approved for the extension to April 7, 2014. This leaves seventy (70) projects for discussion in this workshop.

2. Evidence of local partner commitment along with the supporting scope, schedule, and budget was reviewed for each RAMP Partnership and Operations project. This RAMP program is broken into three (3) main categories or program types.

Program Type	Total # of TC Approved Projects	Total # of Projects Reviewed
RAMP HTPE / P3 Projects (public-private partnerships)	4	3
RAMP Partnership Projects (public-public partnerships)	38	36
RAMP Operations Projects	31	31
Totals*	73	70

<sup>\* =</sup> A total of three (3) projects were granted deadline extensions until April 7, 2014. Two projects were withdrawn in January.

3. CDOT staff has then categorized the RAMP projects into three (3) groups of projects for discussion here. The details of the projects are shown in the attachment.

	Grouping for Staff Recommendations	Total # of Recommended Projects	% of Recommended Projects
Group #1	Projects Recommended for Approval (no additional RAMP funds requested and no changes / non-substantive changes in scope, schedule or budget estimate noted in the comments)	57	81%
Group #2	Projects Recommended for Approval (some additional RAMP funds requested and non-substantive changes in scope, schedule or budget estimate are noted in the comments)	6	9%
Group #3	Projects Recommended for Further Development by Staff	7	10%
	Totals*	70	100%

- 4. After careful review, the staff recommends that staff be granted authority to budget all RAMP projects in Groups 1 and 2 shown on the attachment labeled "Partnership and Operations Projects Staff Recommendation List 2/20/2014" without further Commission action.
- 5. Once Staff has completed further development of projects listed in Group three, they will be presented to the Transportation Commission. Additionally, there will be a presentation

of additional Operations projects at a future date as there is remaining allocation of RAMP funding in this category.

The following options has been identified for Transportation Consideration of this staff recommendation to budget the RAMP funding for these projects.

### Option A

Pass the resolution as recommended by staff. The CFO will have authorization to budget the RAMP funding on these projects without further action by the commission. The CFO will budget sufficient funds to further preconstruction and projects which have other fund sources may still be brought to the commission through the budget supplement process. Further, the CFO would have authorization to budget RAMP funds for construction after execution of an Inter-Governmental Agreement (IGA) on projects where an IGA is required.

### Option B

Pass the resolution for a select list of projects, providing the CFO authorization described above. The Commission would provide staff direction for the remaining projects to be made consistent with the Commission's intention for the RAMP program and staff will work to that end.

### Option C

Do not pass a resolution to budget RAMP funds as a program. Projects within the program will then be required to come forward individually through the budget supplement process, reducing the potential of the commission to act on and manage the program as a whole.

- Commission Approved RAMP
   Request = \$188.000 M
- RAMP Request Amount = \$225.000 M
- Total RAMP Request Change = \$37.000 M Increase (16.0%)

### **Resolution # TC-XXXX**

Resolution to authorize the Colorado Department of Transportation to budget the Responsible Acceleration of Maintenance and Partnership (RAMP) projects.

**WHEREAS**, pursuant to § 43-1-106(8)(a), C.R.S., the Colorado Transportation Commission ("Commission") is charged with formulating general policy with respect to the management, construction, and maintenance of public highways and other transportation systems in the state; and

**WHEREAS**, the State Highway System is an essential component of Colorado's integrated transportation system which is focused on safely moving people and goods to enhance the economic wellbeing, quality of life, and environment of the citizens of Colorado; and

**WHEREAS**, numerous studies have documented that there are significant unmet maintenance or preservation needs and capacity or mobility needs on the State Highway System; and

**WHEREAS,** the Colorado Department of Transportation ("Department") has implemented in SAP an Enterprise Resource Planning system which can support an expenditure based approach to project planning and budgeting; and

**WHEREAS,** and the Department is in the process of further refining its ability to fund and manage the capital construction program enabled by this change in planning and budgeting; and

**WHEREAS**, Governor John Hickenlooper and the Department's of Transportation Executive Director Don Hunt announced on December 14, 2012, the Responsible Acceleration of Maintenance and Partnerships (RAMP) Program which is a new approach to budgeting and planning that will accelerate completion of transportation projects and create or sustain more than 10,500 jobs over five years; and

**WHEREAS,** per Resolution TC-3106 the Commission adopted the projects listed in the document titled "RAMP Partnership and Operations Projects" dated October 16, 2013); and

**WHEREAS,** per Resolution TC-3106, the Department shall advise the Commission if a project is unable to be moved forward; and

**WHEREAS,** per Resolution TC-3106, the Commission authorized the Department's Chief Financial Officer to budget, without additional Commission action, an amount not to exceed five percent of the total project cost for the project as shown on the "RAMP Partnership and Operations Projects" approved on October 16, 2013; and

**WHEREAS,** per Resolution TC-3106, the Commission required the Department to develop on or before January 6, 2014, a project scope, schedule and budget for each Public-Public Partnership in the form and to the level of detail specified by the Chief Engineer; and

**WHEREAS,** per Resolution TC-3106, the Department reviewed evidence of local partner commitments along with the supporting scope, schedule, and budget, in a form specified by the Chief Engineer, for each RAMP Partnership and Operations project; and

**WHEREAS,** the projects included in the staff recommendation list are included in the document titled "RAMP Partnership and Operations Projects" dated and approved by the Transportation Commission on October 16, 2013; and

**WHEREAS,** the Chief Engineer has extended deadlines to April 7, 2014 for projects in flood damaged areas as identified in the "RAMP Partnership and Operations Projects – Staff Recommendation List 2/20/14"; and

**WHEREAS,** the Department has provided the Commission with a list of projects with staff recommendation to begin budgeting funds for those projects that have non-substantive changes in scope, schedule or budget estimates; and

**WHEREAS,** the Department has provided the Commission with projects that require further review and discussion within the Department or with local agency partners to be reviewed and approved by the Commission at a future Transportation Committee Meeting; and

**WHEREAS,** Policy Directive 703.0 would otherwise require staff to obtain budget approval for certain individual projects such as these through the monthly Budget Supplement process; and

**WHEREAS,** the Commission has considered staff recommendation for the projects set forth in the "Partnership and Operations Projects - Staff Recommendation List 2/20/2014",

<b>NOW THEREFORE BE IT RESOLVED</b> , the Chief Financial Officer is
authorized to budget funds for the projects on the "Partnership and Operations
Projects – Staff Recommendation List 2/20/2014" with non-substantive
changes without further Commission consideration or approval.
