**I-70 Mountain Corridor: DIA to Eagle County**

The I-70 Mountain Corridor MIS was commissioned by CDOT to identify the short- and long-term mobility solutions for I-70 from DIA to Glenwood Springs. The 140-mile corridor has many uses; it serves as a major east/west interstate route; a designated defense route; a freight route; the main access to the Colorado mountains; and the way to work, shopping, and school for many people. The MIS was the precursor to the PEIS, where a Record of Decision (ROD) is expected to be signed in Winter 2009

**Safe Routes to School  
Region 2 Pool**

Today, more than ever, there is a need to provide options that allow children to walk and bicycle to school safely. Many communities struggle with traffic congestion around schools and motor vehicle emissions polluting the environment. At the same time, children in general engage in less physical activity, which contributes to the growing epidemic of obesity. At first glance, these problems may seem to be separate issues, but Safe Routes to School (SRTS) programs can address all these challenges through a coordinated action plan. This pool is funding for these types of activities.
