

Added, Completed and Delayed-Discontinued Report Statewide Transportation Improvement Program

Reading the Added and Deleted/Completed Reports

What follows are reports that demonstrate the comparison between the FY2026 – FY2029 STIP and the FY2027 – FY2030 STIP. The FY2026 – FY2029 STIP became effective July 1, 2025, and will remain in effect until the Transportation Commission adopts the FY2027 – FY2030 STIP and it is approved by FHWA and FTA.

Added Projects

This report shows projects that are included in the FY2027 – FY2030 STIP, but were not programmed in the FY2026 – FY2029 STIP. These projects are considered “Added” as they are now qualified to receive funding in this new STIP cycle. It should be noted that the first three fiscal years of this draft STIP are currently included in the FY2026 – FY2029 STIP, which is continuously updated during the current fiscal year. As a result, the “Added” project list typically shows those projects that are being added to the fourth year of the new STIP.

Completed / Delayed-Discontinued

This report shows projects that were included in the FY2026 – FY2029 STIP, but are not programmed in the FY2027 – FY2030 STIP. The reason for not including these projects in the new STIP is primarily because the project has been completed. However, there are some projects that were unable to receive all the funding necessary for completion or are no longer a priority in that corridor. Those projects are considered delayed or discontinued.

Added Projects Report

CDOT Region	STIP ID	STIP WBS ID Description	Current STIP Amount	Current Budgeted Amount	Unbudgeted	Status
