## Statewide Transportation Improvement Program

---

### PROGRAM DISTRIBUTION

The FY2027 – FY2030 STIP program allocations are based on the 2050 Statewide Plan, Your Transportation Plan. The Transportation Commission has worked closely with CDOT staff and its external planning partners to devise an updated financial plan for use with both the 2050 SWP and the STIP.

The Commission has decided to continue use of the 2050 Program Distribution document as the base for the 2050 financial plan. That said, the Commission has adopted several resolutions to recognize updated revenue projections and distribution formulas. The following pages show the adopted resolutions for these changes. The full 2040 Program Distribution document may be found at the link below.
