

Program Distribution

Statewide Transportation Improvement Program

The FY2027 – FY2030 STIP program allocations are based on the 2050 Statewide Plan, Your Transportation Plan. The Commission has approved the use of the 2050 Program Distribution document as the base financial plan for the 2050 Statewide Plan and the STIP.

The 2050 Program Distribution Plan was developed in cooperation with the Transportation Commission, CDOT staff, and CDOT's external planning partners. A subcommittee comprised of members of the STAC, and CDOT staff met regularly during calendar year 2025 to review revenue scenarios and funding allocation formulas. The culmination of their work was adopted by the Commission in September 2025.
