Comments: Tsigo Bugeh serves 75 residents in Tribal apartment buildings. The existing roadway is gravel and needs to be paved. TTP funds in 2023 will be "banked" so that construction can commence in 2024. The CE expenses will be in the FY2024 budget so that they are current. The project cost will be \$248,290 - \$114,890 "banked" in 2023; and an additional \$120,000 in construction funding for 2024. This project is financially constrained.

Comments: Total funds awarded for the study is \$15,000. The TTP 14.56% local match contribution is \$2,184 of \$15,000. The current sidewalks are flush with the road, no access ramps, cross slopes are higher than the max grade of 2%, and sidewalks are cracked and failing. These existing conditions do not comply with ADA/PROWAG standards. This is reimbursable program through NMDOT TAP and will compile a RFP for the Pine Hill Study.

Comments: The Tribal Judicial Complex is in need of a thoroughfare road through the site. Currently, there is a two way road that serves as ingress and egress to the complex. A thoroughfare is desired to provide connectivity to the adjacent residential neighborhood which will aid in mitigating congestion that is caused during peak hours and special events. Comments: New HHS clinic needed. Project is in the planning, programming, and site selection/feasibility phase. Two sites have been identified that are off of the existing road inventory in RIFDS. Conceptual site planning and other studies will determine which site will be selected. Ingress/egress routes will be layed out along with parking lot concepts to determine feasibility based on access and parking spaces. NEPA won't start until the final site is approved. This project is approximatley 2-4 years out from being programmed for PS&E development.

Comments: PS&E development. Will apply for TTP-safety to construct right entrance and right turn exit only off NM 53, milepost 14.70. As part of the 2014 Traffic Impact Study by Bohannon Huston, it was identified that an ingress/egress would help alleviate the primary entrance to the Zuni Elementary off 301 North road. The project is identified as safety project, will apply for TTP-Safety on FY18. 2015 Zuni Tribal Transportation Safety Plan also identifies the project in the plan. Comments: Planning, environmental assessment reporting/cultural clearances at culvert pipe locations from milepost 16 to 18 on New Mexico 53. All culvert pipes are plugged with debris and silt, which all rain runoffs overtop the existing roadway, thus creating unsafe and hazardous situations for the traveling motorists and emergency vehicles. The Zuni Tribe and NMDOT will enter into a Memorandum of Understanding (MOU) to allow NMDOT maintenance crews to annually clean the drainage areas.

Route Number: 400, Sections 10-30 **Project Number:** Z400(1)2&4
Length: 1.3 Miles **County:** McKinley
State: NM **Construction Year:** 2022

Comments: New project. Sandy Springs Rd was listed in the IRR inventory as Route 11. However recent 2014 LRTP updates and changes were made to reflect and be consistent with route separations. New project will consist of planning, EA reporting, roadway designs and reconstruction of existing North & South Sandy Springs. The designs will address drainage problems at NM 53 intersection. Existing concrete & gutter sections will remain intact, improve on grade & drain, new base course and new asphalt pavement within the established rights-of-way of Sandy Springs Rd. FY20 & FY21 shows that the Tribe has started to set aside TTP funds and build up funds towards actual construction start date of FY22, which is the reason no TTP funds were identified for construction engineering (CE) in those fiscal years.
