Date

The STIP is the culmination of the comprehensive statewide transportation planning process sifted down to a four year program of projects. This plan is fiscally constrained and meets the planning requirements detailed in the federal regulations listed above.

Ongoing activities consistent with Title VI of the Civil Rights Act, citizen involvement, and coordination of transportation services for elderly persons and persons with disabilities include the following:

Meetings

Transportation planning meetings are held across Colorado on a regular basis. These meetings are open to the public and the meeting hosts make accommodations for those attendees with special needs. Below is a list of the primary transportation meetings held regularly in Colorado.

Statewide Transportation Advisory Committee (STAC) – This Committee, comprised of County Commissioners and local officials representing the ten rural Transportation Planning Regions and five Metropolitan Planning Organizations, meets monthly to discuss transportation issues and advise the Transportation Commission on those issues.

Transportation Planning Region/Metropolitan Planning Organization – Each planning region conducts regularly scheduled meetings to discuss transportation issues for their area. Attendees include CDOT Region staff, as well as planning staff from both the Region and CDOT Headquarters. These meetings are also open to the public.

Transportation Commission – The Transportation Commission meets each month, setting policy and budget direction for the Department. The STIP is generally brought to the Commission for two purposes each year – the Public Hearing, as part of the public involvement process; and for STIP adoption. Overall planning issues are discussed regularly at the monthly workshops and at the regular Commission meetings.

Public Involvement

The Draft STIP is released for a minimum 30 day public comment period. A public hearing is held with the Colorado Transportation Commission. The STIP is informed by the larger development processes for the Statewide Plan and the recently updated 10 Year Plan, which was adopted by the Transportation Commission in May 2026. The CDOT Region Planning offices, as well as staff from the Division of Transportation Development held multiple public meetings with the transportation planning regions and the STAC over the past year. All of these meetings are open to the public with accommodation to the Americans with Disabilities Act (ADA) requirements. These meetings are held across the state and include a diverse cross-section of the population.

The Public Involvement Guide 2025 has been updated and mitigated for website accessibility at this time. It has been posted on the CDOT external website [here](#).
