

STIP Report

Statewide Transportation Improvement Program

OVERVIEW OF THE STIP REPORTS

The STIP may also be accessed online at <https://www.codot.gov/business/budget>. An updated web-based version of the STIP is being developed which will allow for additional interactivity including project mapping and the ability to search the STIP.

As mentioned in the Executive Summary in Chapter 1, there two types of projects included in the STIP – Regionally Significant projects and STIP Pool projects. Regionally Significant projects are stand-alone projects that meet specific federal criteria as projects serving regional transportation needs. The addition, deletion, or major changes to Regionally Significant projects require a STIP Amendment which includes public review and approval by the Colorado Transportation Commission. Minor changes can be made administratively via a STIP Administrative Modification. STIP Pool projects are projects that do not meet criteria for identification as Regionally Significant, and are grouped together based on the primary source of funding for that project, such as Surface Treatment funds.

Regionally Significant projects and Program projects are differentiated by the naming convention used. Regionally Significant projects appear in the STIP as: SXX____. The “S” stands for STIP, the XX represents a Transportation Planning Region (TPR) or CDOT Region designation, followed by a four digit project number. STIP Programs are similar, however, a three digit extension is added to designate the projects within the program (i.e. SR15215.073). Regionally Significant projects are identified individually and include information on funding amounts and programmed years. Program projects are “grouped” under the relevant Program (i.e. Surface Treatment) without detailed information on funding amounts or year. This allows more flexibility in funding projects which are ready to move forward in the design and construction process without triggering a STIP Amendment or Administrative Modification.

The STIP is organized by CDOT Region. Statewide projects and programs appear in the Statewide Section of the STIP at the end of the STIP document. All dollars identified in the STIP are in thousands.

Fields in the STIP include the following:

- CDOT Region
- STIP ID – The unique identifier for Regionally Significant projects or STIP Programs
- STIP ID Description – A description of either a Regionally Significant project or STIP Program
- STIP WBS ID – A three digit extension of the STIP ID. Regionally Significant projects are identified by .999, STIP Programs and Pools are identified by .000, and sub-projects within STIP Programs and Pools are identified by .001, .002, etc.

STIP Report

Statewide Transportation Improvement Program

- STIP WBS Description – Includes the same information as STIP ID field for Regionally Significant projects and STIP Programs, or descriptions of specific sub-projects within STIP Programs and STIP Pools.
- Funding Program – Represents the CDOT funding program associated with a Regionally Significant project or STIP Program.
- STIP Phase – Represents the phase for the projects, such as Design, Construction, Right of Way, Environmental, Utilities, or Miscellaneous.
- Fund Type – Identifies the specific federal and state programs the funding is tied to. For example, federal programs will show in this column as NHPP (FHWA’s National Highway Priority Program), 5307 (FTA’s USC Section 5307 Program), and SHF (Colorado’s Highway User Tax Fund, or gasoline tax). All of these fund types are detailed in the Acronym List in Chapter 8.
- Years – Identifies the funding (in thousands) by State Fiscal Year.

STIP Reports

Additionally, the STIP report is split into two views. Each view provides a different snapshot of the data included in the STIP. The full STIP Summary report shows all of the projects included in the FY2025 – FY2028 STIP. The Major Projects report shows data that is extracted from the full STIP report. These reports should not be utilized for determining fiscal constraint. For Fiscal Constraint, please refer to the report provided in Chapter 5.

Below is a description of the two STIP project views:

- All Projects - This view lists all of the projects included in the current FY2025 - FY2028 STIP. This view is found under Chapter 4.1 in the pdf Index.
- Major Projects - This view is a subset of the full STIP and includes only the major projects across the state. This view is found under Chapter 4.2 in the pdf Index.
