

Public Involvement

Statewide Transportation Improvement Program

PUBLIC INVOLVEMENT

Public Involvement for the development of the FY2026 – FY2029 STIP is carried out in accordance with 23 CFR 450.210. Public involvement plays an important part in STIP development. CDOT’s Project Priority Programming Process, or 4P, has been established to meet and support federal requirements regarding the development of the STIP. Further, CDOT utilizes A Guide to the Transportation Planning and Programming Public Involvement Process as its guidebook for implementing public involvement for the entire planning process, including the development of the STIP. This guidebook is currently unavailable as it is being updated and made accessible for CDOT’s external website in late Spring or early Summer, 2025.

Public Involvement for the FY2026 – FY2029 STIP opened on April 4, 2025 and closed on May 9, 2025. Comments received are detailed below.

STIP Public Hearing

A Public Hearing was held with the Transportation Commission on April 17, 2025, during the Commission’s regular meeting.. No comments were submitted during the public hearing.

Comments Received

Move Colorado – The organization encourages CDOT to adopt planning strategies that balance the diverse needs of urban, resort, and rural communities across the state. Move Colorado will also support policy actions that serve all Coloradans.

Coalition 4 Cyclists – Requested more visible connectivity among the various plans that CDOT develops and adopts. While CDOT’s programs are based on three primary planning documents – the Statewide Plan, the 10-Year Plan, and the STIP – there are other plans that provide input to the planning process, as well as how to carry out day-to-day business. Those plans include the Asset Management Plan and the Highway Safety Plan. Coalition 4 Cyclists would like to see how these plans interface.

Treadshare – Treadshare supports CDOT’s emphasis on multimodal transportation, congestion relief, and environmental sustainability and encourages CDOT to consider carpooling platforms as part of the multimodal corridors and mobility hub planning.

FHWA / FTA – FHWA and FTA submitted comments that make technical corrections to the text in the Executive Summary. Those comments have been addressed. Further, they suggested edits to the Project Priority and Programming Guidelines and the STIP Amendment Guidelines. Those comments will be addressed later this calendar year as we update those guidance documents to align with the 2050 Statewide Plan.

Two comments were received from CDOT’s planning partners to verify and validate funding amounts on projects included in the STIP project reports. CDOT staff has worked with those parties to resolve the issues.

Public Involvement Statewide Transportation Improvement Program

Public Meetings

CDOT regularly conducts public meetings with its planning partners to discuss upcoming plans and projects. A list of meetings held across the state during the past year follows this page.

Public Meetings for FY2026 – FY2029 STIP Development

CDOT Region	Transportation Planning Region	Meeting Date	Location	Attendance
