(303) 894-8246

Definitions

Rider Status segments seen throughout this document were determined through the following definitions:

- Regular rider: someone who rides buses or the light rail/train at least a few days a week over the past six months.
- Infrequent rider: someone who rides buses or the light rail/train a few days a month or less frequently (but not either more frequently) in the past six months.
- Past rider: someone who previously rode the bus or light rail/train at least sometimes before the pandemic, but no longer does (in the past six months).
- Non-rider: someone who says they never rode either mode in the past six months nor before the pandemic.

Statistical significance can be seen with percentages in **blue** and **red** font on the Tables tab

- Statistical significance is tested in every quantitative table in this document through Pearson's Chi-Square Tests of Independence for Contingency Tables generalized for complex samples
- Percentages presented in **blue font** are statistically significantly higher than all other segments in that group when combined at the 0.05 level
- Percentages presented in **red font** are statistically significantly lower than all other segments in that group when combined at the 0.05 level
- Percentages presented in black font are not statistically significantly different than all other segments in that group when combined at the 0.05 level
- Relevant corrections for multiple comparisons are applied throughout

The following tables are best viewed
in 2-page (side-by-side) view.
