EnviroScreen 2.0 Tool Guide

How to determine if a project is in a
Disproportionately Impacted (DI) Community

Revitalizing
Main Streets

COLORADO

Department of Transportation

Overview

The steps below will guide you to learn if a proposed project is located within a Disproportionately Impacted (DI) Community, as defined in Colorado Statute. This information can be used when completing the Equity Improvement section (Part 4 - Question 3 on Page 9) of the Revitalizing Main Streets (RMS) grant application.

- *Need additional help or information?*

For the CDPHE EnviroScreen 2.0 DI Map, visit the [Disproportionately Impacted Community Map](#)

For a more in-depth guide and resources, visit the [User Guide: Colorado EnviroScreen 2.0](#).

If you have questions or need support, please reach out to the RMS team at cdotmainstreets@state.co.us.

Step 1: Access DI Map

Access the DI Map: <https://www.cohealthmaps.dphe.state.co.us/DICommunity/>

Criteria Report

Use the blue checkboxes below to add or remove the criteria for disproportionately impacted communities from the map (Colorado Revised Statute 24-4-109). Updated November 2024.

- ☒ Mobile home communities
- ☒ Low-income population above 40%
- ☒ People of color population above 40%
- ☒ Housing cost-burdened population above 50%
- ☒ Linguistically isolated population above 20%
- ☒ Colorado EnviroScreen percentile score above 80
- ☒ Within a Justice 40 census tract
- ☒ Area under tribal jurisdiction
- ☒ Does not meet criteria

Archived disproportionately impacted community layers

- ☐ Disproportionately impacted community (May 2023)

Add data to the map

Census Block Group:
080310008001

Zoom to

Disproportionately impacted community criteria for census block group 080310008001 in Denver county. Updated November 2024.

Low-income population over 40%? Yes | 79.37%

People of color population above 40%? Yes | 90.3%

Linguistically isolated population above 20%? No | 14.14%

Provide project location.

In this example we are using the address for CDOT Headquarters.

Note: This tool provides data for each census block group, delineated by light gray borders. If your project location is in multiple census block groups, you can choose to submit data for all block groups or choose the block group that is most representative of the project.

Mobile home communities

Low-income population above 40%

People of color population above 40%

Housing cost-burdened population above 50%

Linguistically isolated population above 20%

Colorado EnviroScreen percentile score above 80

Within a Justice 40 census tract

Criteria

Report

Generate a Community Report

Step 1: Use the search feature to locate your area of interest by entering the specific address or latitude/longitude coordinates.

Step 2: Click on the blue **Add Location Button**, and the **Point Selector Tool** will prompt you to select a location on the map. Once have selected the desired location, click **Run Report**.

Select a point: *

Location

+ ADD LOCATION

After you select Run Report it may take a few minutes for the report to appear.

Contact us at cdphe_ej@state.co.us if you need additional support.

RUN REPORT >

EXIT

How to use the map

Go to Colorado EnviroScreen 2.0

Español

1.) Click "Report"

2.) Click "ADD LOCATION", then move your cursor to the project location on the map and click. The clicked location will now show a yellow circle. Note: To deselect a location, click the trash can icon in the left pane.

3.) Next, click on "RUN REPORT" Note: this can take a few minutes to process.

Disproportionately impacted community definition criteria

Denver County

Census block group 080310008001

Criteria	Yes/No	Value
Low-income population above 40%	Yes	79.37%
People of color population above 40%	Yes	90.27%
Linguistically isolated households above 20%	No	14.14%
Housing cost-burdened population above 50%	No	31.68%
Area under tribal jurisdiction	No	N/A
Colorado EnviroScreen percentile score	Yes	99.08
Within a Justice 40 census tract	Yes	N/A

To be considered a DI community, only one DI criteria needs to be labeled “yes” in the report. In the example shown, the location achieves multiple DI community criteria.

Step 6:

Complete narrative in application and attach report

To complete the Equity Improvement section (Part 4 - Question 3 on Page 9) of the [Revitalizing Main Streets \(RMS\)](#) grant application, this example project location would:

1. Respond to the question “a. Is the project location within a Disproportionately Impacted (DI) Community?” with a ‘yes’. If your project location results in all ‘no’s under the yes/no column in your DI report, you would respond ‘no’ to that question.
2. Write in the narrative section how populations who have been disproportionately impacted will benefit from the proposed project.
 - a. Note: if you receive a ‘no’ in the ‘yes/no’ column to all DI categories, but there exists an equity challenge at the project site, please describe what that challenge is and how the disadvantaged population(s) will benefit from the proposed project.

Criteria	Yes/No	Value
Low-income population above 40%	Yes	79.37%
People of color population above 40%	Yes	90.27%
Linguistically isolated households above 20%	No	14.14%
Housing cost-burdened population above 50%	No	31.68%
Area under tribal jurisdiction	No	N/A
Colorado EnviroScreen percentile score	Yes	99.08
Within a Justice 40 census tract	Yes	N/A
