

Section 412 of the Standard Specifications is hereby revised for this project as follows:

Subsection 412.13, first paragraph, shall include the following:

When a joint is sawcut more than 3 inches from the designated location, the pavement shall be removed and replaced to the nearest correct joints. When portions of concrete pavement are removed and replaced, the portion removed shall be the full width of the lane and length of the affected slabs. This corrective action shall be at the Contractor's expense.
