Division of Engineering,
Design and Construction

C-470 Prioritized Goals

1. Optimize traffic operations on C-470 within the project budget.

- Once operational, optimize trip reliability in the tolled express lanes by maintaining a 45 mph minimum operating speed.
- Preserve the existing general purpose lanes by providing improvements that enable them to operate at levels better than the no-action condition.

2. Optimize scope of improvements within the project budget.

3. Optimize Operating and Life-Cycle Maintenance costs.

4. Minimize impacts to the traveling public during project construction and future construction.

5. Achieve the following project milestones:

- Expenditure of \$100M RAMP funding by December 31, 2017
- Work cooperatively with the E-470 Public Highway Authority on the planning, installation, and testing of tolling infrastructure, culminating in the Tolling Final Acceptance Test starting on the date listed in the contract.
