

Scoping Survey

for planning purposes

REGION 5
SW COLORADO

Survey of US HWY 160 CO HWY 172 to Gem Village

MP 91 – 101
Project 20980

FIELD ACTIVITY

CDOT is gathering data for planning purposes. The information will be used to assess the feasibility of a potential future roadway and safety improvement project along the US Hwy 160 corridor from the CO Hwy 172 junction to Gem Village (MP 91 – 101).

Crews will begin surveying at the west end of the corridor near Elmore's Corner on Fri, July 15, 2016. Surveying will continue eastward along US Hwy160 toward Gem Village.

TRAVEL / SITE IMPACTS

No travel impacts are expected during the survey of the highway. Motorists and area residents can expect to see survey activity during regular working hours, approximately 8 am to 5 pm.

BACKGROUND

CDOT is exploring the feasibility of safety improvements along US Hwy 160 between CO Hwy 172 and Gem Village. The survey will provide the information necessary to plan for needed roadway developments. Planning options may include resurfacing, additional lanes and widening of shoulders. These potential enhancements would improve travel and safety for motorists on the road.

The final scope of the project will be determined as funding becomes available.
