

I-25 Arapahoe Interchange Reconstruction

Project Overview

Construction Schedule

Reconstruction of the Interstate 25 and Arapahoe Road interchange is scheduled to begin May 2016, with substantial completion slated for summer 2018.

Project Scope

This \$66 million Responsible Acceleration of Maintenance (RAMP) Project includes building an additional lane along westbound Arapahoe Road from Yosemite Street to Greenwood Plaza Boulevard, providing three left turn lanes from the I-25 off-ramps, realigning the frontage road in the northeast quadrant of the interchange, building noise walls near the Arapahoe Road and Yosemite Street intersection and widening Yosemite Street from Yosemite Circle on the north to Xanthia Street on the south. This project is designed to reduce congestion and improve traffic operations and safety.

Contractor – Kraemer North America

Kraemer North America is a 105-year-old national transportation construction company based in Castle Rock, Colorado, specializing in road and bridge projects. Kraemer's work in Colorado includes the recently completed US 6 Bridges Design-Build Project and the widening of the Veterans Memorial Tunnel in Idaho Springs. Other projects they are currently working on include the I-25/Cimarron Project in Colorado Springs and the I-70/Vail Underpass Project. Kraemer has built their reputation on an uncompromising commitment to achieve the highest standards of quality, safety and excellence in project execution. Kraemer also takes pride in community involvement, providing proactive, consistent and transparent communication to the public.

Look-Ahead

Keep in mind that construction on the I-25 and Arapahoe Road interchange project will be dynamic with crews working in different areas of the project at the same time between Greenwood Plaza Boulevard on the west and Clinton Street on the east. Here is what you can expect in the spring and summer of 2016:

- Various utility relocations
- Temporary pavement construction and temporary alignments of Arapahoe and I-25 travel lanes
- Several full overnight closures of Arapahoe Road beneath I-25 to build the new highway bridge
- Re-routing the frontage road in the northeast quadrant of the interchange
- Installation of temporary fencing behind the homes along Arapahoe Road and Yosemite Street
