Explain: The Hickory House restaurant is not NRHP eligible due to loss of integrity, including multiple additions to the façade, evident on historical photographs of this building found at the Aspen Community Development Department files. This building is located within the Main St HD and is considered non-contributing to the HD, which was determined Officially Eligible in 2006. The 2000 *City of Aspen Update of Survey of Historic Sites and Structures* prepared by Reid Architects declared this historic resource not eligible to the NRHP; CDOT concurs with this finding. The Aspen Historic Officer, Amy Guthrie, is in the process of submitting this resource as a Local Landmark to the Aspen Historical Board. Reid Architects submitted an architectural inventory form in 2000 for this building; therefore, at this time, CDOT is submitting a re-evaluation form.

14. **Management Recommendations:** Because the resource is in the Main Street HD, CDOT recommends that the SH 82 Entrance to Aspen project follow mitigation measures as outlined in the ROD during improvements in the historic district. The improvements will be within the right-of-way, which will not impact the resource. However, when and if the LRT is constructed, SHPO and the Aspen Historic Preservation Commission should review the design drawings for the LRT overhead lines and medians in its vicinity. This is outlined in the ROD as part of the mitigation.
