

Phase 1 Bikeway Detour

As part of the US 36 Express Lanes Project, finish work and final construction is ongoing on the Phase 1 bikeway. As shown on the map below, additional concrete work is being done in the area shown in red through Sunday, July 26. Bicyclists will need to use detour shown in green to tie back into the bikeway. Flaggers will be on site to assist during this work. We appreciate your patience as we work to complete the bikeway.

Phase 1 of the bikeway is 11 miles long, between Westminster and Interlocken. When Phase 2 is completed in 2016, the entire length of the bikeway will be 18 miles, connecting Denver to Boulder. For more information about the project, please visit www.codot.gov/projects/US36ExpressLanes.
