

US 6 Bridges Design Build Project BR 0061-083

Sub Account 18838 (CN)

Date: September 12, 2012

Reply to Inquiry Request I.D. J-2

Question:

Section 3.3.2 Resumes of Key Personnel – Item H – Traffic Operations Manager.

The descriptions listed for the work of this person imply someone in a post-design role. The certification required is Traffic Control Supervisor.

Section 16.2 of Book 2 describes that the Contractor’s “PE in responsible charge of MOT design...” with some overlapping responsibilities.

Is Item H asking to identify the post-design TCS in the field or is it intended to identify the PE ?

Answer:

Section 3.3.2 and 3.3.2 of the RFQ identifies Key Personnel, including the Traffic Operations Manager. The Traffic Operations Manager shall be a Certified Traffic Control Supervision in the State of Colorado. This individual is the day-to-day person in the field and works in coordination with the design personnel in the development of MOT. The Submitters submittal is in response to the RFQ and not the draft documents of the RFP which have been released for early Industry review.
