## — PROJECT UPDATE — CO 1 resurfacing project complete

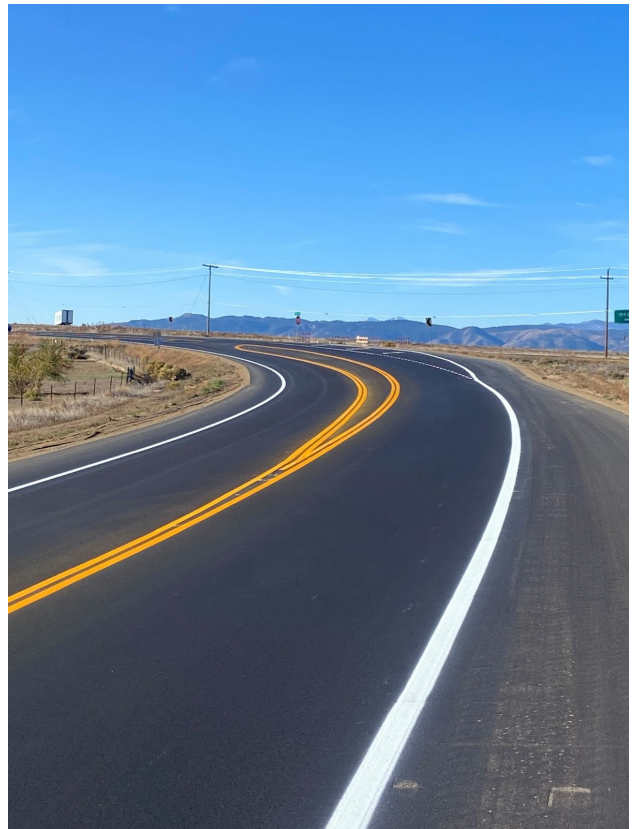

**LARIMER COUNTY** — On November 2, the Colorado Department of Transportation completed the CO Highway 1 resurfacing project between Wellington and Fort Collins. The project successfully resurfaced CO 1 from Cleveland Ave. in Wellington to US 287 near the southern edge of Terry Lake in Fort Collins. The resurfacing improved the driving experience and prolonged the life of the road surface from mile marker 0.0 to mile marker 9.35. There was a 2.3 mile “No Work” zone from mile marker 0.9 to mile marker 3.2 which was not resurfaced. The project also included landscaping restoration and reseeding.

### Project Background

The project began in July 2022 and Coulson Excavating, of Loveland, CO, was the prime contractor. The project was completed on schedule and within budget due to the successful partnership between the Colorado Department of Transportation and Coulson Excavating.
