SITE #	SITE NAME	SITE ADDRESS	REC or PEC*	LISTED DATABASE	SITE DESCRIPTION AND OBSERVATIONS
ENTIRE CORRIDOR	RAILROADS	ENTIRE CORRIDOR	PEC	N/A	Railroads have the potential for undocumented events and an accumulation of drips, leaks, and spills over time. The railroad ties are also commonly treated wood containing creosote or heavy metals. Railroads are located near Longmont (CO 119), Fort Lupton, and Hudson.
ENTIRE CORRIDOR	OIL AND GAS ACTIVITY	ENTIRE CORRIDOR	PEC	N/A	Colorado Oil and Gas Conservation Commission database identifies 225 oil and gas wells within the 1000-foot buffer. Oil storage and tank batteries are also often found near active wells. Oil and gas activity presents the potential of leaks, spills, and the accumulation of drips over time.
1	TONY CITO DUMP	6070 N. 79TH, LONGMONT, CO 80301	REC	HISTSWLF, SEMSARCH	Based on CDPHE HISTSWLF, this site is assumed to be a historical dump/landfill. The site is currently in residential use. This site was also listed in the SEMSARCH and its archived status indicates that, to the best of EPA's knowledge, no further steps will be taken to list the site on the National Priorities List.
