

Evergreen Lake north trail construction on CO 74 March 20

Alternating one-lane traffic pattern will be in place for initial preconstruction phase

PROJECT OVERVIEW

Evergreen Park & Recreation District, City/County of Denver, Jefferson County, Colorado Department of Transportation and ESCO Construction will begin the north trail improvement project on CO 74 (Evergreen Parkway) along the northeast portion of Evergreen Lake in Evergreen. The first phase of the project includes potholing to locate all existing utilities. Potholing will have crews on CO 74 and will require daily alternate lane closures to keep crews and the traveling public safe.

This initial preconstruction phase of the project is for potholing only and is expected to last one to two weeks. The potholing phase will require an alternating one-lane traffic pattern. A different traffic pattern (with southbound traffic using CO 74 and northbound traffic detouring to Meadow Drive) will be used for most of the construction phase of the project. More information about the construction-phase traffic pattern can be found at EPRD's webpage at: <https://www.evergreencreation.com/291/Evergreen-Lake-North-Trail-Project>.

The project will replace an existing soft-surface trail on the north side of Evergreen Lake, as well as the wall supporting the trail. The improvement will create a two-track trail system: An accessible, multi-use, concrete Upper Trail (near the road level); and a pedestrian-only, soft-surface Lower Trail (lake level) with bump-outs for fishing and observation. The project will include improvements to drainage, roadway characteristics, and support infrastructure at and near the project site. More detail about the project can be found on EPRD's website at: <https://www.evergreencreation.com/291/Evergreen-Lake-North-Trail-Project>.

PROJECT SCHEDULE

The initial preconstruction potholing phase will start March 20 and last one to two weeks. Trail construction work is scheduled to begin by May 2023 and is expected to last until fall 2023.

Normal working hours will be from 7:00 a.m. to 5:00 p.m.

TRAVEL IMPACTS

There will be **one-lane alternating traffic** throughout the potholing phase of the project.

- **Delays up to 10 minutes** can be expected.
- **Loads wider than 12 feet** will be restricted through the work zone.

CONTACT INFORMATION

If you have questions or concerns or if you would like to be added to our public outreach contact list to receive construction updates, please contact us!
