

Project Accomplishments to Date

A Lot Has Happened So Far!

- Established **collaborative partnerships** with local, state, federal, and private entities
- Evaluated **initial actions** that can be implemented rapidly
- Developed **preliminary funding package**, including a Federal INFRA grant application
- Conducted **risk, schedule, and funding reviews**
- Conducted **initial corridor assessment**: infrastructure review and design criteria, environmental conditions, traffic characteristics unique to the corridor
- Developed **Purpose and Need**
- Conducted **safety assessment**
- Developed **travel demand model**, including weekday and weekend traffic and 2040 projections
- Developed suite of **potential transportation solutions** throughout the 34-mile I-25 corridor and evaluated them based on their ability to address the biggest problems
- Conducted **design survey**
- Conducted **environmental field surveys**
- Performed robust **communications, media, and outreach**
