

I-70 VAIL UNDERPASS

STARTING TUESDAY, JULY 5 | Major Traffic Shift on Frontage Roads

What:

This phase includes extensive work along the North and South Frontage Roads — the roads will be excavated and lowered, including the relocation of utility lines, construction of a new storm sewer facility and retaining walls.

When:

7 a.m. to 7 p.m. Monday through Saturday. However some extended hours may be required pending construction progress. The traffic detour configuration will remain in place 24/7.

Traffic Impact:

I-70 will return to normal two-lane traffic in each direction.

The Frontage Roads will function as one-way traffic only through the project site. The traffic flow will mirror I-70 — the North Frontage Road will be westbound only from Lion's Ridge Loop to Timber Ridge, while the South Frontage Road will be eastbound only from Cascade Resort to Cascade Crossing. Apart from the project site, the Frontage Roads will operate as normal two-way traffic.

Drivers traveling on the Frontage Roads who reach the one-way stretch in the wrong direction will have the opportunity to turn around and use I-70 or the opposite Frontage Road to reach their destination.

Bike and pedestrian traffic will still be able to get through using the detour paths shown in blue.
