

I-25: The New Pueblo Freeway

Ilex Street to City Center Drive

TRAFFIC ADVISORY

HEAD TO HEAD TRAFFIC ADVISORY

ALL TRAFFIC TO SHIFT INTO SOUTHBOUND LANES ON SANTA FE NEXT WEEK
Expect temporary realignment during drainage work on the northbound side

Please be advised that beginning Monday, October 19, and lasting for approximately one week, the Colorado Department of Transportation (CDOT) will close the northbound lanes of South Santa Fe Avenue at the Clark/D Street Intersection. During the temporary closure, both directions of traffic will be in a head-to-head configuration in the southbound lanes as crews install drainage pipe along the northbound side of the road. Speeds will be reduced to 25 mph through the work zone.

Traffic flow and access to local businesses will be maintained during the work. Motorists are urged to use extra caution while traveling in head-to-head traffic.

For information about the I-25 Ilex to City Center Drive project, contact the project team at i25ilex@PublicInfoTeam.com or call 719-470-2270.

CDOT and Flatiron Constructors thank you for your patience during construction.
