

Development and Validation
Of the North I-25 Draft EIS Combined Travel Model
Table of Contents

Section 1	General Chronology
<i>Page</i>	<i>Description</i>
1	Chronology of Development and Application of the North I-25 Combined Travel Model
<hr/>	
Section 2	Study Area and Purpose and Need
<i>Page</i>	<i>Description</i>
1 – 4	Purpose and Need Summary
<hr/>	
Section 3	Population and Employment Data
<i>Page</i>	<i>Description</i>
	Population and Employment Data for Level 2B and Level 3 modeling; see Sections 14 and 15 for DEIS and FEIS updates to this data
<hr/>	
Section 4	Travel Forecast Working Group
<i>Page</i>	<i>Description</i>
1	Description of the TFWG process
2 – 6	Lists of TFWG Participants
7 – 81	TFWG Meeting Agendas and Minutes
<hr/>	
Section 5	Comparison of MPO Models
<i>Page</i>	<i>Description</i>
1	MPO Traffic Analysis Zones (TAZs)
2	DRCOG Base Year Highway Network
3	NFRMPO Base Year Highway Network
4 – 10	Detailed Comparison of Model Structures and Processes
11 – 25	DRCOG and NFRMPO Internal/External Trip Comparisons
<hr/>	
Section 6	Forecasting Needs and Options
<i>Page</i>	<i>Description</i>
1	Description of Project Travel Demand Forecasting Needs
2 – 9	Options for development of Travel Demand Model
11 – 13	Selected approach to combine MPO Models

Section 7 DRCOG Roadside Survey	
<i>Page</i>	<i>Description</i>
1	Bi-Regional Auto Trips Summary
2 – 8	DRCOG / Carter and Burgess, Inc. TBI Data Non-Disclosure Agreement
9 – 11	Summary of Roadside Survey Data
12 – 24	Excerpts from Denver Regional Travel Behavior Inventory
25 – 27	Notes describing bi-regional movements on major roadways
28 – 33	Origins and Destinations of Bi-Regional Trips
34 – 35	Roadside Survey Trip Processing
36 – 47	Trip processing by type and roadway
48 – 52	Survey Data, Process, and Copy of Survey
53 – 56	Trip Types
57	Trip Lengths
58 – 65	Origins and Destinations of Work Trips
Section 8 NFRMPO Household Survey	
<i>Page</i>	<i>Description</i>
1	Description of Survey and Observations
2 – 7	Survey Results
Section 9 RTD pnR Data	
<i>Page</i>	<i>Description</i>
1	Map of Origins of Northern RTD park-n-Ride users
Section 10 Traffic Data	
<i>Page</i>	<i>Description</i>
1	CDOT Traffic Counts within Study Area
2 – 9	Historic Traffic Counts
Section 11 Journey to Work Data	
<i>Page</i>	<i>Description</i>
1 – 6	Census County-to-County Journey to Work Data and Observations
7 – 19	Census Tract and Municipality Journey to Work Data and Observations
Section 12 Special Events Household Survey	
<i>Page</i>	<i>Description</i>
1	Survey and Results Report
Section 13 Zone and Network System Merging	
<i>Page</i>	<i>Description</i>
1 – 5	Description of Process to Merge the MPO Model Networks and TAZ

Development and Validation of the North I-25 EIS Combined Travel Model
Table of Contents

	Systems
6 – 11	Comparison of various differences between two models
12 – 15	Zone System Comparisons
16 – 19	Coding Details
20 – 22	Input File Generation
23 – 28	Process to Merge Transitbases for DEIS runs
29	Final TAZ System
30	Zone and network modifications for DEIS
31 – 43	NFR Transit Systems
44 – 75	Process to Code NFR Transit Routes

Section 14 Trip Table Development

<i>Page</i>	<i>Description</i>
1	Bi-Regional Attraction
2	Bi-Regional Matrix Legend
3 – 9	BR Trip Table Process – Flowchart
10 – 11	County Road Stations notes
12 – 13	Daily Volumes at MPO Border with notes
14	External Stations Volumes
15 – 17	IE Model Trip Table
18 – 21	Development of Bi-Regional Trip Table
22	NFR Work Trips
23 – 25	Overlap Zones
26 – 27	DRCOG and NFRMPO Internal/External and External/External Trips
28 – 30	Roadside Survey and CTPP Reconciliation
31 – 36	2030 Bi-Regional Matrix Development
37	2030 trip table notes
38 – 47	2030 Trip Table Process
48	2001 2030 comparison
49 – 55	2030 Bi-regional Future Year data
56	2030 Bi-Regional Matrix Development
57	2030 trip table notes
58	2030 Trip Table Process
59	Bi-Regional Prod. in NFR
60	External Station Volumes
61	Future Trip Table Method
62	Trip P&A Growth
63	Current and Future Truck Vols.
64	Percent of Daily Truck Volumes
65 – 66	Roadside Survey Bi-regional Truck Summary
67	Truck Trips – Production/Attraction
68 – 69	Truck vs. Commercial Trip Rate Notes
70	Current and Future Truck Vols.

Section 15 Model Validation

**Development and Validation of the North I-25 EIS Combined Travel Model
Table of Contents**

<i>Page</i>	<i>Description</i>
1 – 11	Base Year Model Summary Reports
12 – 23	2030 Model Summary Reports
24 – 32	Mode Choice Comparisons
33 – 43	Traffic Assignment Comparisons
44 – 117	Trip Distribution Comparisons
118 – 121	Trip Generation Comparisons

Section 16 Model Re-Validation for DEIS Modeling

<i>Page</i>	<i>Description</i>
1 – 13	Combined Model Recalibration Chronology and Process
14 – 22	DRCOG Model Updates
23 – 54	Model Summary Reports
55 – 61	Mode Choice Comparisons
62 – 84	Traffic Assignment Comparisons
85 – 138	Trip Distribution Comparisons
139 – 142	Trip Generation Comparisons

Section 17 FEIS Update and Re-validation

<i>Page</i>	<i>Description</i>
1 – 5	Approach to Update Model for FEIS 2035 Modeling
6 – 11	Rail Travel Time Update
12 – 37	Re-validation Results

Section 18 Model Operation

<i>Page</i>	<i>Description</i>
1 – 16	Description of Model Process

Section 19 FEIS Update and Re-validation

<i>Not PDF Files</i>	
Matrix Operations	Executable files to be used for Step 3 of the model process
Script	TransCAD model scripts to be used for Steps 1 and 5a5b of the model process
