

# Chain-Up Station Project

## PROJECT OVERVIEW

CDOT/Zak Dirt have started the chain up station project along CO 285 near Grant. The 2<sup>nd</sup> phase of the project will start in Summer 2023 on CO 9 near Alma and is expected to be completed by September 2023.

The project will create a safe pullout location off the roadway for truckers and travelers to put chains on when the chain law is in effect. The chain stations will make it easier for truckers and travelers to comply with the law during icy and snow-packed conditions. Advanced warning signs and adequate lighting will be installed to improve visibility and wayfinding for the drivers. The addition of the chain up stations will allow CDOT Maintenance to concentrate on snow removal operations instead of mobilizing equipment to move stranded vehicles that have lost traction out of the way of traffic.

## PROJECT SCHEDULE & LOCATION

Week of November 7 - November 11

Grant Chain Station-MP 208.8 to 209.4

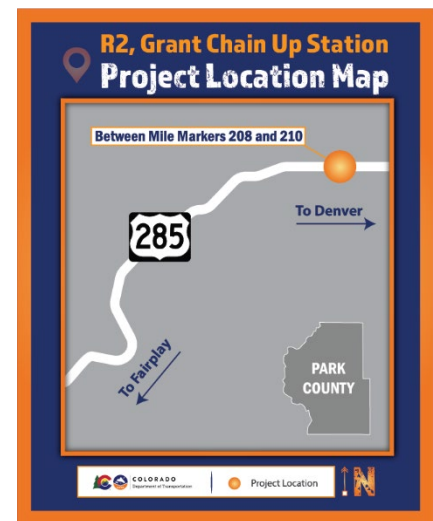

## TRAFFIC IMPACTS

**Construction hours of operations:** Monday to Friday, 7 a.m. to 7 p.m.

Flaggers will be present with shoulder closures at the Grant location. Speeds will be reduced to 40 MPH.

Thursday, November 10<sup>th</sup> - Alternating lane closure for pavement striping.

*The construction schedule is weather dependent and subject to change.*

**COLORADO**  
Department of Transportation

*Asphalt installed on the west side of CO 285 near Grant*
