

Chain-Up Station Project

PROJECT OVERVIEW

The Colorado Department of Transportation, along with Zak Dirt, have started the chain up station project along CO 285 near Grant. The 2nd phase of the project will start in Summer 2023 on CO 9 near Alma. Work is expected to be completed by September 2023.

The project will create a safe pullout location off the roadway for truckers and travelers to put chains on when the chain law is in effect. The chain stations will make it easier for truckers and travelers to comply with the law during icy and snow-packed conditions. Advanced warning signs and adequate lighting will be installed to improve visibility and wayfinding for the drivers. The addition of the chain up stations will allow CDOT Maintenance to concentrate on snow removal operations instead of mobilizing equipment to move stranded vehicles that have lost traction out of the way of traffic.

PROJECT SCHEDULE & LOCATION

Week of August 22 - 26

Grant Chain Station-MP 208.8 to 209.4

TRAFFIC IMPACTS

Speeds will be reduced to 40 MPH on the westbound lane. Crews are working on the shoulder excavating and hauling off dirt. Flaggers will be present on the east and westbound lanes.

Monday through Friday, from 7 am to 7 pm.
