

Chain-Up Station Project

PROJECT OVERVIEW

CDOT/Zak Dirt have started the chain up station project along CO 285 near Grant. The 2nd phase of the project will start in Summer 2023 on CO 9 near Alma and is expected to be completed by September 2023.

The project will create a safe pullout location off the roadway for truckers and travelers to put chains on when the chain law is in effect. The chain stations will make it easier for truckers and travelers to comply with the law during icy and snow-packed conditions. Advanced warning signs and adequate lighting will be installed to improve visibility and wayfinding for the drivers. The addition of the chain up stations will allow CDOT Maintenance to concentrate on snow removal operations instead of mobilizing equipment to move stranded vehicles that have lost traction out of the way of traffic.

PROJECT SCHEDULE & LOCATION

Week of September 19 - September 23

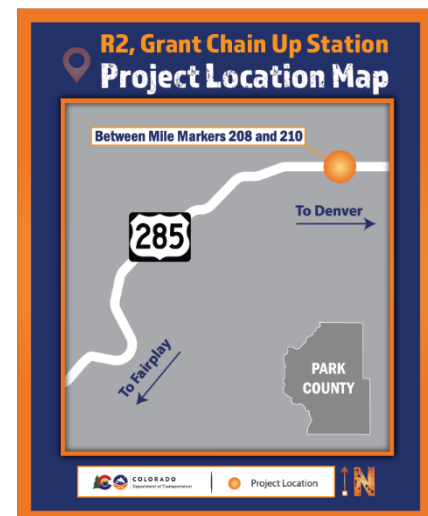

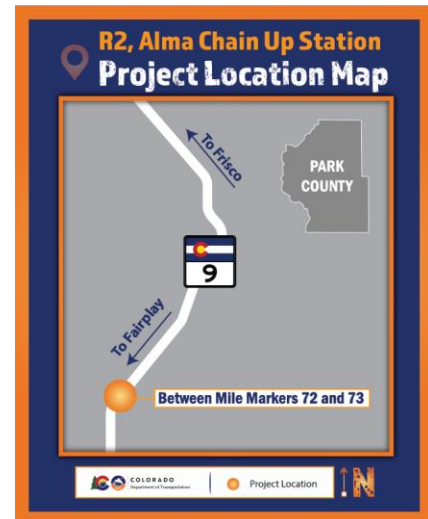

Grant Chain Station-MP 208.8 to 209.4

TRAFFIC IMPACTS

Construction hours of operations: Monday to Friday, 7 am to 7 pm

Shoulder closures at the Grant location. Speeds will be reduced to 40 MPH on the westbound lane. Flaggers will be present on the east and westbound lanes.

On Friday, September 23rd, the westbound lane will be closed during construction hours of operations.

COLORADO
Department of Transportation

Grading and excavation on the west side of CO 285 near Grant.
