

Project Update

CO 141 bridge rehabilitation and improvements project to begin April 3

Project Overview

The Colorado Department of Transportation will reconvene construction operations April 3 on the CO Highway 141 Bridge Rehabilitation and Improvements Project south of Gateway. The project will include restoring bridge deck integrity, waterproofing, resurfacing, and pavement markings.

Project Schedule & Location

The new anticipated completion date is the end of May, pending weather conditions and the availability of construction supplies. The project locations are along CO 141 primarily between Naturita and Gateway at two locations MP 59 and 88.5.

Traffic Impacts

Travelers will encounter construction operations Monday through Friday, from 7 a.m. to 7 p.m. Vehicles will be reduced to single-lane, alternating traffic intermittently in either direction. The speed limit will be reduced to 40 mph and an 11' lane width restriction is in place. Travelers are advised that local law enforcement will be patrolling the work zone areas throughout the duration of the project.

Contact Information

Contact the project team with questions or concerns or if you would like to receive construction updates.
