COVID-19

Safe transportation infrastructure is essential for all of us, particularly for emergency first responders and freight drivers as Colorado navigates the COVID-19 pandemic. With that in mind, CDOT maintenance and construction crews follow social distancing and other health safety measures to reduce COVID-19 exposure on the worksite. The Colorado Department of Public Health and Environment announced [guidelines for construction activities](#). The public is urged to join the campaign for #DoingMyPartCO by practicing social distancing and wearing face masks. As traffic returns to normal levels, motorists must drive cautiously and heed the speed limit so all of us can return home safely.

Milling & Paving: The Colorado Department of Transportation and prime contractor, United Companies, will begin milling and paving operations starting Monday, August 17.

Work will get underway at the north end of town at Mountain View Drive and progress south. Travelers can expect shoulder and single-lane closures in the work zone segments, which will change daily. All side street approaches to US 24 (approximately 20 feet) will also be milled and paved with short-term closures as well.

- Milling begins Monday, August 17 and will commence for two weeks. US 24 will be milled first and the approaches (side street intersections) second.
- Paving will begin August 31 and will be addressed in a similar fashion as the milling.

Travel Impacts:

- Shoulder closures
- One-lane closures
- Short-term side street intersection closures
- **IMPORTANT NOTE:** Please pay attention to the no parking signs during milling and paving operations. Vehicles parked in the work zone will be towed.

Estimated Project Schedule (subject to change):

- Project is scheduled to conclude at the end of October.
- Normal working hours will be from 7 a.m. to 7 p.m., Monday through Friday. In special cases these hours may be extended.
- Weather has a huge impact on the paving schedule.
- All schedules are subject to change and weather dependent.
