

US 160 in East of Springfield

What Work is Being Done?

APC Southern Construction will begin work on US Highway 160 in Baca County. Crews will be doing deck milling and resurfacing the roadway both eastbound and westbound, as well as making drainage improvements. Additionally, crews will be placing new shoulder material, guardrail, reseeding, mailbox replacement, fencing and high visibility striping will be done prior to project completion. Drivers can expect a 24 hour, 12-foot width restriction. Speed restrictions down to 50mph as they approach the work area and then a further reduction to 40mph in the immediate work zone, due to alternating single lane closures. Expect up to 10 minute traffic delays. Partial closures of US 160 will be in effect between Wednesday, April 6, 2022 and July 2022.

Why is the work being completed?

This project is part of CDOT's "Whole System. Whole Safety." initiative aimed at enhancing safety for Colorado's traveling public. Once the resurfacing work is completed, drivers will find a smoother roadway surface with new guardrail, new signage, high visibility markings and stabilized shoulders. These enhancements will make the highway safer for residents, visitors and commercial truck traffic.

When will crews be working?

Work will take place during daylight hours Monday through Friday. Night work and weekend work are not anticipated at this time.

Travel Impacts

- Alternating single lane closures on US 160 between MP 464.4 and MP 475.94 and on 4 miles of CO 100 between MP 0.0 and 0.4
- Width restrictions of 12 feet will be in place 24 hours a day.
- Flagging personnel be on sight to direct travelers as the speed limit will be reduced to 40 mph during working hours.
