

US 160 in East of Springfield

What Work is Being Done?

This week crews will be resurfacing the roadway beginning on the east side of the project and heading west. A 12-foot width restriction is in place for oversize loads from Monday thru Friday, 7:00 AM to 7:00 PM. Speed reductions down to 50 mph can be expected as motorists approach the project area. Then a further reduction to 40 mph in the immediate work zone should be expected. Flagging personnel will be onsite due to alternating single lane closures. Expect up to 10 minute traffic delays. These closures and delays of US 160 will be in effect between April, 2022 and July 2022.

Why is the work being completed?

This project is part of CDOT's "Whole System. Whole Safety." initiative aimed at enhancing safety for Colorado's traveling public. Once the resurfacing work is completed, drivers will find a smoother roadway surface with new guardrail, new signage, high visibility markings and stabilized shoulders. These enhancements will make the highway safer for residents, visitors and commercial truck traffic.

When will crews be working?

Work will take place during daylight hours, 7am to 7pm, Monday through Friday. Night work and weekend work are not anticipated at this time.

Travel Impacts

- Alternating single lane closures on US 160 between MP 464 and MP 476 and on .4 miles of CO 100 between MP 0.0 and 0.4
- Width restrictions of 12 feet will be in place Monday thru Friday, 7:00 AM to 7:00 PM within the project boundary.
- Flagging personnel be on sight to direct travelers as the speed limit will be reduced to 40 mph in the active work zone during working hours.
