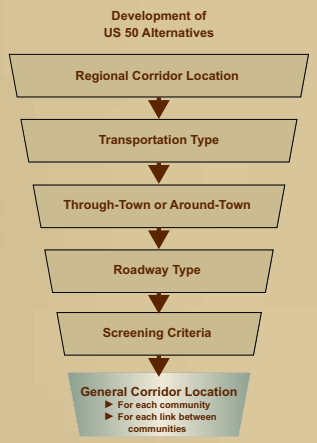
General Location for Fowler Corridors*



SCREENING CRITERIA	North Corridor	South Corridor
Homes/businesses/farms (number within the corridor)	20	12
Potential historic properties (number of sites)	3	2
Parks, recreation areas and wildlife facilities (number within corridor)	1	0
Prime Wetlands (acres of Type 1 or 2 wetlands within corridor)	20	6
Total Wetlands (acres within corridor)	71	29
Farm land (acres within corridor)	99	193
Habitat for Threatened or Endangered Species (acres)	0	0
Floodplains (yes or no: does the corridor encroach into a floodplain?)	yes	no
Noise receivers (number of residences and other active uses within 1000-foot corridor plus 300 feet either side)	29	16
Air Quality-sensitive facilities (number of schools, nursing homes, hospitals) within 1,000-foot corridor plus 300 feet either side)	0	0
Other important resources affected **PLEASE COMMENT**	TBD	TBD
Public acceptance **PLEASE COMMENT**	TBD	TBD
Compared with the other alternatives, is this a reasonable corridor location?	TBD	TBD

* Impacts shown are proportional to a 250-foot right-of-way within a study corridor 1,000 feet wide. Since there is room to shift the right-of-way within the corridor, most impacts shown could probably be avoided.
