

# General Location for Rocky Ford Corridors\*

SCREENING CRITERIA	North Corridor	South Corridor
Homes/businesses/farms (number within the corridor)	60	38
Potential historic properties (number of sites)	2	2
Parks, recreation areas and wildlife facilities (number within corridor)	0	0
Prime Wetlands (acres of Type 1 or 2 wetlands within corridor)	11	6
Total Wetlands (acres within corridor)	30	20
Farm land (acres within corridor)	192	273
Habitat for Threatened or Endangered Species (acres)	0	0
Floodplains (yes or no: Does the corridor encroach into a floodplain?)	yes	no
Noise receivers (number of residences and other active uses within 1000-foot corridor plus 300 feet either side)	68	47
Air Quality-sensitive facilities (number of schools, nursing homes, hospitals) within 1,000-foot corridor plus 300 feet either side)	0	0
Other important resources affected	<b>PLEASE COMMENT</b>	TBD
Public acceptance	<b>PLEASE COMMENT</b>	TBD
Compared with the other alternatives, is this a reasonable corridor location?	TBD	TBD

\* Impacts shown are proportional to a 250-foot right-of-way within a study corridor 1,000 feet wide. Since there is room to shift the right-of-way within the corridor, most impacts shown could probably be avoided.
